

Who is Trailco?

Trailco Irrigation Aust, a Queensland family owned business, has been active in Travelling Irrigator manufacture since 1969 through its manufacturing facility (Combined Engineering) and marketing its product under its own name as Trailco Traveller® through a dealer network since 1976. The dealer network has expanded from a mainly Queensland base in the beginning to now encompass all Australian states and New Zealand.

Who is Marani?

Marani was born in 1950, with its initial production being based on the production of galvanized steel pipe and on the production of irrigation machinery.

In the last period the company started to focus its resources on the production of Hose Reel Irrigators with the target to be every day more present all over the world. This focus made Marani enlarge its range of products in terms of hose reel irrigators as well as various irrigation accessories including motor pump units and gen sets.
