

Drive Train Conversion

Tired of changing gearboxes and center drives in 100 degree heat?

Save time, save labor, reduce downtime and save the hassles of digging out a stuck drive during the irrigation season by converting an existing drive.

- 8 year / 8000 hour drive train warranty for complete conversions
- One of the most economical ways to significantly improve reliability and extend the life of your machines
- Almost ALL pivot brands can be converted
- Complete and partial conversions available
- Special drive train update packages for Valley machines also available

Tired of deep wheel ruts?

Choose a solution that fits your application when purchasing a new pivot, or convert an existing drive.

- Reduce wheel rut depth and increase traction
- Reduce motor load for longer life
- Articulating drive beams follow sudden changes in field terrain
- Designed for extreme conditions
- Less wear and tear on harvesting equipment
- One of the most economical ways to significantly improve reliability and extend the life of your machines
- Almost ALL pivot brands can be converted
- Complete and partial conversions available
- Special drive train update packages for Valley machines also available

Select the best option for your given field situation:

Drive Choice	Traction (Prevent Getting Stuck)	Floatation (Reduce Wheel Rut)	Rough Ground Capabilities
3-Wheel Drive	Better	Good	Better
4-Wheel Articulating Drive	Best	Better	Best
Tracked Drive	Best	Best	Good
4-Wheel Articulating Track Drive	Best	Best	Best
